

# WINE DESCRIPTION

## CHÂTEAU LA SABLE RED 2019

### APPELLATION LUBERON PROTÉGÉE

Our family vineyard is located in Cucuron (Provence), in the Luberon Natural Park; surrounded by olive trees and forests.

We are committed to produce a quality wine while respecting the environment and have farmed organically since we acquired the estate in 2018.

**Appellation:** A.O.P. Luberon

**Grape Varieties :** Grenache, Carignan  
From 50-years old vines

**Terroir:** Sandy terroir, at an altitude of 250m, facing south and protected on the mountain-side by a forest, which promotes biodiversity.

In this sandy soil, the vines can go very deep, which amplifies the original expression of this terroir.

**Harvest:** Hand-harvest in small 20kg cases

**Wine making:** Selective sorting of the grapes. Alcoholic fermentation for about 3 weeks. Alternating daily plunging and pumping over to allow for a delicate and slow extraction of colour and flavour. Aging for 50% in oak barrels.

**Tasting Notes:** Shiny, deep red colour. Intense on the nose, with notes of ripe red and black fruits. On the palate, the start is round, and the flavours of dark fruits are followed by a spicy finish.

**Serve around 15-17°C**

**Alcohol:** 14,5% vol.
